And much much more...

Children's Guaranteed Critical Illness Cover

A perfect gift
for your child

CONTINENTAL
SECURING YOUR TOMORROWS

During the last few years, many of my clients have asked me about the possibility of gifting life insurance to their kids so that at least their kids don't have the same regret in future. However, most providers had 18 as the minimum entry age to buy life insurance with critical illness till now.

We can now offer globally portable Life and Critical Illness insurance to children as young as 1 day old. The plan has guaranteed maturity value along with Life and critical illness cover up to 100 years of age which doesn't need any active fund management.

Here is one-of-a-kind gift for your children to keep them financially protected

- **Insure** from the day they are born, why wait till 18?
- **Protect** from any early-stage & major critical illness that very few plans can offer
- **Provide** access to a pot they can rely on until the age of 100
- **Plan** their financial security today to get enhanced cover for the first 10 years

"Think of critical illness as income protection for you. If god forbid your child falls sick, critical insurance ensures no financial interruptions occur, and you can be by your child's side without worrying about rent or bills. It can also act as an accumulated pot which can be gifted with a guaranteed amount. This plan is a no-brainer, and everyone needs to consider getting positioned for one."

- Adnan Raj

I would love to connect with you for a non-obligatory discussion on securing your child's future.
